

Rueda Club — Site Map & Navigation Map

One-hand mobile UX reference: every screen, every path, and how many taps each core task costs. Generated from the current code.

1. Screens & paths

2. Core tasks — tap cost from Home

Watch today's lesson	Home → tile VIEW	1
Open a style's classes	Home → style tile OPEN	1
Open a level's lessons	Home → Level → pick level	2
Find a move by name	Home → Search → type → tap result	3 (2 via footer Classes)
Watch a random Foundations tutorial	Home → Find class	1
Favorite a lesson	Lesson → ♥	1 (from anywhere)
See only my favorites	Footer → Favorites	1
Venue directions	Footer → Community → Maps	2

3. Keyboard & accessibility map

Search field	Enter	run search (opens best match)
Search results	↓ / ↑	move through results
Search results	Enter	open highlighted result
Search / drawer	Escape	close results / drawer
Every screen	Tab	all controls reachable in DOM order
Mobile keyboard	auto	results flip above input — never hidden under keyboard

Search input is 16px — iOS Safari does not zoom on focus. All tap targets ≥ 44px.

4. Routes (shareable URLs)

Home	/?tab=home (default /)
Search	/?tab=classes
Levels	/?tab=levels
Class page	/?style=style-rueda-de-casino (also son-cubano, documentary, musicality)
Lesson	/?move=<moveId>&style=<styleId>
Playlist	/?tab=playlist
Community	/?tab=community
Favorites	/?tab=favorites
